

MARIJUANA: WHAT YOU NEED TO KNOW

Katherine Soal RDH, CDA, MSDH

ksoal@qcc.mass.edu

Course Description:

This course will provide an overview of medical and recreational marijuana use, its pharmacological effects on the body, medicinal applications, and dental treatment considerations. Legal and social issues surrounding marijuana use will be discussed along with the process of obtaining a medical marijuana card in Massachusetts.

Objectives:

Upon completion of this course the participant will be able to:

1. Describe medical and recreational marijuana use and modes of administration
2. Describe and identify the effects marijuana has on the body
3. Discuss various medicinal applications of marijuana
4. Evaluate the patient who is using marijuana and determine treatment considerations and/or modifications
5. Converse with the patient who uses marijuana in a way that is conducive to creating a positive provider/patient relationship
