

Preventing Medical Emergencies in Dental Hygiene Practice for the RDH/CDA

Live Online Remote Lecture CE Course – 3 CEUs

Medical Emergencies for the RDH and CDA

Presented by: Dr. Mary Terkoski

Medical emergencies do occur in the dental setting, and we all need to be prepared! This course will provide the RDH/CDA with guidelines for preventing and managing medical emergencies. Prevention strategies will include reviewing patient medical history, obtaining medical consultations, and modifying treatment for medically compromised patients. Participants will learn how to conduct a patient risk evaluation, the importance of emergency equipment in the office, and how to manage common medical emergencies as part of the dental team.

At the end of the course participants should be able to:

- Assess a patient's emergency risk
- Request necessary physician consultations before providing treatment
- Modify treatment to prevent emergencies from occurring
- Assemble an emergency medical kit
- Describe basic medical emergency management protocol
- Recognize the clinical signs and symptoms of common medical emergencies
- Manage several common medical emergencies

Course Date: 9:30a – 12:30p • Saturday, October 3, 2020

Enrollment: Begins July 1 through September 23.

Call: 1 800-818-3434

Course Number: HLT 721-80. Provide a valid email and phone # for the course

Tuition: \$53

3 CEUs awarded for participation
