## Dental Radiography: Putting Theory to Practice

**Presenter: Kelly Shutoff, M.Ed.**

This online refresher course will provide the dental radiographer the basic principles of x-ray production and biology. The fundamentals of intraoral radiographic exposures and interpretation will be reviewed, as well as troubleshooting common challenges through technique and armamentarium modifications. Attendees will leave with reinforced understanding of and confidence in dental radiography theory and application in patient care. Course is open to any dental professional working with x-ray production.

(2 hours, 2 CEUs). \$49

Date: Saturday, July 23, 2022 from 9a – 11a

Must be present for the entire online webinar to be awarded CEUs.  
Zoom session is live and not recorded.

### Objectives:

- Define x-radiation and explain the basic steps of x-ray production.
- Describe the biological effects of ionizing radiation on a living organism.
- Outline fundamental principles of intraoral radiographic exposure selection and technique.
- Identify features of normal anatomy and common deviations from health in the interpretation process.
- Troubleshoot challenging intraoral exposures through technique and armamentarium modification.

**Course Date:** Saturday July 23, 2022 at 9AM-11AM Course HLT 759 75

**Enrollment Deadline:** July 11 or until seats fill

**To Enroll Send Email to:** [wrighte@middlesex.mass.edu](mailto:wrighte@middlesex.mass.edu)

**Provide:** Full name, Date of Birth, Home Address, Email for course communication, Cell Number

**Tuition:** \$49 2 CEUs awarded upon completion

**Course Questions:** call 781 280-3570 or email: [wrighte@middlesex.mass.edu](mailto:wrighte@middlesex.mass.edu)
